### REC\_DS using C\_Week 5\_COD\_Question 5

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : Coding

##### 1. Problem Statement

In his computer science class, John is learning about Binary Search Trees (BST). He wants to build a BST and find the maximum value in the tree.

Help him by writing a program to insert nodes into a BST and find the maximum value in the tree.

##### ***Input Format***

The first line of input consists of an integer N, representing the number of nodes in the BST.

The second line consists of N space-separated integers, representing the values of the nodes to insert into the BST.

##### ***Output Format***

The output prints the maximum value in the BST.

Refer to the sample output for formatting specifications.

### **Sample Test Case**

Input: 5

10 5 15 2 7

Output: 15

### **Answer**

```
#include <stdio.h>
#include <stdlib.h>

struct TreeNode {
    int data;
    struct TreeNode* left;
    struct TreeNode* right;
};

struct TreeNode* createNode(int key) {
    struct TreeNode* newNode = (struct TreeNode*)malloc(sizeof(struct
TreeNode));
    newNode->data = key;
    newNode->left = newNode->right = NULL;
    return newNode;
}

// You are using GCC
struct TreeNode* insert(struct TreeNode* root, int key) {
    //Type your code here
    if(!root) return
createNode(key);
    if(key<root->data) root->left = insert(root->left,key);

    else root->right = insert(root->right,key);
    return root;
}

int findMax(struct TreeNode* root) {
    //Type your code here
```

```
        while(root->right) root= root->right;
        return root->data;
    }

    int main() {
        int N, rootValue;
        scanf("%d", &N);

        struct TreeNode* root = NULL;

        for (int i = 0; i < N; i++) {
            int key;
            scanf("%d", &key);
            if (i == 0) rootValue = key;
            root = insert(root, key);
        }

        int maxVal = findMax(root);
        if (maxVal != -1) {
            printf("%d", maxVal);
        }

        return 0;
    }
```

**Status :** Correct

**Marks :** 10/10
